e se contin e over e f

Sponsored by Osmose

3. For products, please also provide a description of the development process, technical specification and information about the applications of the product. Information about the performance of the product in the field, and feedback from the market from specifiers or end users, if available, would also be helpful

Use section sheets or provide supporting materials required

4. For applications of engineered wood in construction, joinery or manufacturing, please provide details of the product or products used, how they have performed and the benefits they have provided for the building or finished manufactured or joinery item

Use section sheets or provide supporting materials required

5. Photographs of products and applications should also be provided, if possible

Return by Friday August 1, 2008 to Mike Jeffree, editor TTJ, Progressive House, 2 Maidstone Road, Sidcup DA14 5HZ.

The Achievement in Engineered Timber Award will be judged by an independent panel. The presentation will be made at the TTJ Awards 2008 on September 18 at The Park Lane Hotel, London.
